Beaverton Code Services Program – Brian Strohl, City of Beaverton

Property Responsibility Involves and Depends on Everyone (P.R.I.D.E.) is the mission statement for the Mayor's Office of Community Programs *Code Services Program*.

Brian Strohl described the Code Services Program, a community service that provides information on and coordinates the enforcement of City Codes dealing with nuisances such as:

- abandoned vehicles
- noxious vegetation

- rubbish
- poorly maintained sidewalks
- non-conforming signage
- tree protection
- control of dogs
- restricted parking

Code Services Programs collaborates with the City Police, Planning and Building Departments that deal more directly with City Ordinances, Building Codes and Development Regulations. Citizens can request Code Services staff to work with neighbors to solve problems taking the following steps:

- • Code Services sends initial letter to responsible party requesting compliance (2 weeks)
- • Code Services sends a follow-up letter if no resolution reached (1 week)
- • Code Services issues a citation if still no resolution (2 weeks)
- • Court arraignment is scheduled (2 months)

2,100 cases were processed during 2002, thirty-nine of which were reported in the West Slope neighborhood. Fifteen of those incidents were reports of abandoned vehicles. *(To report an abandoned vehicle, call 503-350-4058)*

Ken Wolfgang and Ralph Shoemaker are finalizing the plan for signage to advertise NAC meetings. The grant process includes the following:

- Proposal submittal to the City of Beaverton
- Approval of the proposal
- Implementation of the plan
- Reimbursement by the City of Beaverton following implementation

Canyon & 87th Committee Report

The committee is investigating the possibility of securing a grant to fund an initial planning effort through the Oregon Transportation Growth Management (TGM) – Quick Response Program. The TGM Program is a joint effort of two state agencies: the Department of Transportation (ODOT) and the Department of Land Conservation and Development (DLCD). The Program is 90% federally funded, and 10% state funded.

Support by the City of Beaverton is required to apply for the grant. Don Dutro is preparing a presentation to Mayor Drake and Janet Young, Director of the City's Economic Development group scheduled for March 17, 2003. Ken Wolfgang made a motion to empower Don Dutro to speak as a representative of the West Slope NAC and property owners in his presentation to the City leaders. Terry Lawler seconded the motion that was approved unanimously.

Matthew Spicer will also be talking with NAC Program Manager Megan Callahan to solicit her help in reaching the appropriate City officials to advance our plans to improve the Canyon & 87th "neighborhood center".

Sid Snyder met in early March with Randy Wooley and Jabra Khasho from the City Engineering Department at the intersection to witness the dangerous encounters between vehicles and pedestrians attempting to navigate through the area. Their initial observation was that:

- Canyon Road was not wide enough to add a left turn lane to allow west-bound cars to turn left on 87th, a situation that must be planned through ODOT.
- The City could re-stripe the south side of 87th to designate a right turning lane onto Canyon Road, east-bound, and a left lane for traffic moving straight or turning left onto Canyon Road, west-bound.
- The City could also request ODOT to re-program the signal for split-timing, allowing traffic on 87th to make protected turns onto Canyon Road.

New Business

Neighborhood "Block Party"

Sid Snyder suggested that the NAC could organize a neighborhood "block party" on or around July 4th. More discussions to follow.

Next Meetings
